

ALGONOMY

Active Content

Design Dynamic, Personalized Campaign Creatives

Active Content enables marketers to effortlessly draw data from multiple sources to craft visually compelling creatives, delivered with open-time and send-time personalization.

Turn Your Data into Stunning Visuals

Effortlessly draw all your data — through API, CSV, or web, including legacy data — to create hyper-relevant visuals that are unique to each customer. Do all this without IT support.

No Coding, Just Drag-and-Drop

Create stunning dynamic visuals with familiar HTML design tools to deliver hyper-personalized experiences. Pre-built dynamic content blocks to visually compelling creatives in minutes.

Generate Personalized Content at Open Time

Marketers can now deliver dynamic, personalized visuals that update every time a customer opens the email. Always show the most updated price, inventory, product recommendations and more.

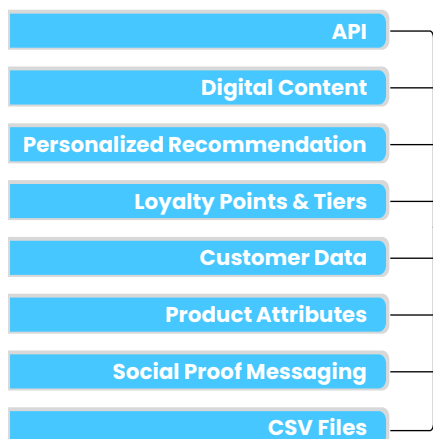

Design Once, Use Across Channels

Create dynamic content blocks that can be delivered seamlessly across channels like email, WhatsApp, in-app messaging, SMS, and more. Effortlessly reuse dynamic content across campaigns.

Maximize ROI of your Existing MarTech Stack

Active Content easily integrates with your existing ESP or Marketing Automation Platform. Enabling you to deliver hyper-personalized content across all channels, delivering higher ROI.

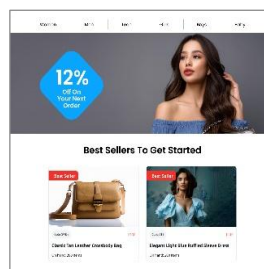

Mashup data from multiple systems

Active Content

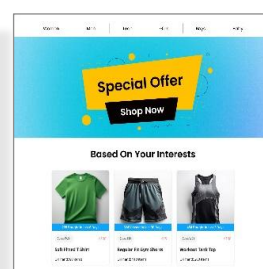

Email

Emily
New Customer. Campaigns targeted to get first purchase

Henry
Lapsed customer. Has a high affinity with men's wear. Campaigns targeted to win him back

Why Brands Choose Active Content

Integrated Offering for AI-Driven Personalization

Algonomy's offering is a true Omnichannel Personalization Engine. We can drive advanced personalization & social proof messaging on web, mobile, and marketing channels like emails etc.

Reduced Total Cost of Ownership (TCO)

With other products you'll require 3rd party tools to enable recommendations, social proof & Product Ensembles within marketing channels, increasing your overall TCO, and integration & management challenges.
