

Ecommerce Made Conversational, Guided & Curated

Algonomy helps retailers maximize customer value by orchestrating 1:1 personalization across every channel. Powered by GenAI-driven discovery and personalization, our solutions for eCommerce and Marketing make every customer interaction contextual, relevant, and revenue-generating.

What We Do

Omnichannel personalization at scale

Tailored recommendations and dynamic discovery experiences across web, app, and email.

Hyper-personalized dynamic content and campaign at open-time across Email, WhatsApp, and beyond.

Inspire, guide, and convert with AI-curated outfits, social proof messaging, and audience-first targeting
